### HALF MILLION TO STATE RULED

Supreme Court Decision Upholds "Pay Patient" Law

COUNTIES OWE \$500,000

Case May be Appealed to U. S. Body, is Said

COLUMBUS — (Associated Press) — More than \$500,000 will be forthcoming to the state from various counties as the result of a decision of the supreme court today, upholding the constitutionality of that section of the Ohio code known as the "pay patient" law which provides for payment by counties of maintenance of persons sent to state institutions. Decision was made in case brought by Louis J. Hove, treasurer of Hamilton-co. A mandamus petition had been filed in the supreme court to compel Hamilton-co. officials to pay \$68,907 to the state for the board and maintenance of inmates in the state reformatory institution from 1910 to 1915.

MAY APPEAL

It was not known, it was said here today, whether the case will be appealed to the United States supreme court.

Attorney General Price estimated at least \$500,000 in maintenance fees are being held up by various counties, waiting for final action in the case.

His records show that there is \$163,000 due from Franklin-co; \$1,326 from Clinton-co; \$37,380 from Adams-co; \$16,429 from Clermont-co and \$27,389 from Gallia-co.

RULING ON JUDGES

The filing of an affidavit of prejudice against a judge does not automatically disqualify him to hear the case. This was the ruling held today in mandamus proceedings brought by Clarence L. Chute, New Lexington, former auditor of Perry-co against Chief Justice Marshall of the supreme court.

The opinion was dissented to by Justices Robinson and Hough. Chief Justice Marshall did not participate. It is discretionary with the chief justice, the opinion held, as to the eligibility of a judge against whom such an affidavit has been filed to hear the case involved.

Chief Justice Marshall conducted a hearing at New Lexington and held Judge T. D. Price, of the common pleas court of Perry-co, against whom Chute's counsel brought proceedings to disqualify him, eligible to hear the case.

Subsequently Chute filed a mandamus petition in the supreme court to compel Marshall to assign another judge to preside during his trial, his counsel claiming that the very fact of the filing of the affidavit of prejudice removed the trial judge.

Chute is under indictment for misuse of county funds.

WILL REVIEW CASE

The supreme court today decided to review suit brought by Richards, Parish and Lamson, brokers, against the trustees of the Cincinnati Southern railroad, for the return of a certified check deposited by the brokerage firm, as successful bidders of \$1,000,000 bonds of the railroad company. After depositing the check, the brokers charged they found the bonds violated provisions of the Grinstead act and they could not undertake to handle them. Trustees of the railroad refused to return the check.

Common pleas court and the court of appeals held for the railroad company. The bonds were to finance a bridge over the Ohio river.

### RUTH SUSPENDED

Baseball Star Again Laid Off For Argument

CHICAGO — (Associated Press) — Babe Ruth of the New York Yankees today received his third layoff of the season when President Ben Johnson of the American League, suspended him for his argument in yesterday's game at Cleveland with Empire Dimeen.

No limit was set on the suspension, the duration being indefinite until Mr. Johnson receives a full report of the affair.

Ruth was out of the game at the start of the season as a result of a suspension by Baseball Commissioner Landis and recently was given a one-day layoff and a fine by Mr. Johnson for an argument with an umpire at New York.

LIMA LADS OFF TO WEST RETURN HOME; NO MONEY

Clay Hammack and Leroy Hawlister, 18-year-old high school boys who disappeared early Monday with a machine belonging to the former's father, H. C. Hammack, 118 S. Baxter, returned to their homes, Tuesday.

They had gotten as far as Chicago, but there the prospects of continuing to Yellowstone National park, their original destination, was given up due to lack of money. It is said.

### SHAPPELL DIES AT ST. RITA'S

Heart Trouble Proves Fatal to Lima Oil Man

AILING LESS THAN MONTH

Deceased Member of One of City's Oldest Families

Charles H. Shappell, 46, proprietor of the Shappell Oil Products company, N. West-st road, died Tuesday at 8 a. m. at St. Rita's hospital, where he was taken to days ago. Death is said to have been due to heart trouble.

Shappell was found in the office of the Products plant on May 29, shortly after the noon hour, in an unconscious condition. He had been stricken with heart trouble. He was removed to City hospital where he recovered and was later taken to his home.

DECLINE GRADUAL

After a few days there, he gradually failed in health and was removed to St. Rita's hospital. Death came at a time when it was believed by surgeons and nurses that he was on the road to complete recovery, having been much improved.

Charles H. Shappell was a member of one of the oldest Lima families. He was born near Hume and had resided practically his entire life in Lima. His present residence is at 234 S. Collett-st.

For the past 10 years he has been engaged in the oil products business on the N. West-st road. He organized the Lima Truck and Storage company and the Consumers' Coal company and was manager for some years of the Crystal Ice & Coal company, which he also organized.

He was a member of the Lima Chamber of Commerce, of the Lima club, of the Lima Rotary club and Lima lodge of Elks. He was also affiliated with Lima lodge, Kni, ts of Pythias. He held membership in the Market-st Presbyterian church.

WIDOW, TWO CHILDREN

Besides the widow, he is survived by two children, Miss Donna Shappell and Cyril Shappell, both of whom are students in college, but who were present when the end came. Mrs. Shappell, the widow, is a sister to Walter S. Jackson, attorney, and E. J. Jackson, police judge.

Two brothers, Arthur and Melvin Shappell, and a sister, Mrs. Pauline Heaton, Chicago, also survive.

The body was removed to the family home. Funeral arrangements have not been completed.

### CONFESSES CRIME

Georgia Man Kills Wife and Mother-in-Law

STATESBORO, Ga. — (Associated Press) — Alleged to have confessed to shooting to death his eighteen-year-old wife and his mother-in-law while returning in an automobile with them to their home at Dover, Ga. Elliott Padrick was held at the Richmond-co. jail, in Augusta, today, where he was speedily removed last night for safekeeping following his arrest after discovery of the crime. Padrick found the automobile abandoned on the road at dusk yesterday, containing the body of Padrick's mother-in-law, Mrs. M. B. Dixon, 38, and his wife, who expired in a few minutes after it is said, accusing her husband of the shooting.

Padrick, who had been separated from his wife for several months, is said by the authorities to have confessed to shooting the two women in an impulse of jealousy over his wife's alleged attentions to other men.

NAVY MEASURE NOW UP TO THE CONFEREES

WASHINGTON — Acceptance by the senate in passing the naval appropriation bill of the house enlisted personnel figure of 86,000 men left only the senate increases, amounting to about \$44,000,000 to be adjusted by the conferees of the two houses. As put thru the senate late yesterday without a record vote, the measure carries a total appropriation of \$295,450,000.

The final day's debate on the bill was marked by unsuccessful efforts to end American occupation of Haiti, the Dominican republic and Nicaragua and to launch a congressional investigation of navy administration.

DR. E. B. STARR DEAD

COLUMBUS — Dr. E. B. Starr, 41, chief of the division of hygiene, state department of health, died at a local hospital today of pneumonia. The body will be taken to Springfield for burial.

### PAY OWN WAY

HARRIET CLEGG (ABOVE) AND HER PARTNER, ELIZABETH DENNISON.

Being a rich man's daughter isn't any handicap.

Two girl students at Antioch College, Yellow Springs, O., both daughters of millionaires, prove it.

They opened a tea room, where they serve lunches to students for a reasonable figure, yet made money enough to pay their school expenses.

Harriet Clegg, one of the girls is the daughter of Harries P. Clegg, street car magnate of Dayton. Elizabeth Dennison, the partner is the daughter of a rich manufacturer of Framingham, Mass.

### STRAUB IS GIVEN LIFE TERM

Slayer of Alice Mellett Sentenced to Prison

JACKSON, Mich. — (Associated Press) — George Straub, confessed slayer of Alice Mellett, pleaded guilty of first degree murder in the Jackson county circuit court this morning. He immediately was sentenced to solitary confinement at hard labor for life in Marquette prison, by Judge Benjamin Williams.

A curious crowd of hundreds of persons overflowed the little court room where Straub was arraigned, but there was no sign of any disturbance.

The prisoner was brought from Lansing escorted by seven cars loaded with armed state police. The trip was without incident.

Immediately upon his arrival in Jackson, mounted state police were thrown around the court house. Straub was arraigned in Justice court where he waived examination.

From there he was taken to circuit court where he made his plea and sentence was pronounced.

The entire procedure required less than ten minutes.

Straub will be held in the county jail here until 4:30 this afternoon when he will be placed on a train to start his trip to Marquette.

### BONUS LAID ASIDE

Motion for Immediate Consideration Tabled

WASHINGTON — (United Press) — The bonus bloc in the senate was crushed today when it challenged the action of the Republican majority in delaying action on the soldier bonus.

By a vote of 51 to 22, a motion for immediate consideration of the bonus was "laid on the table" which is equivalent to defeat.

### MAY EXTEND TIME FOR PAYMENT OF COUNTY TAXES

Decision to extend the time limit for paying taxes due for the first half of the current year will be made at a meeting of the board of county commissioners called for Tuesday.

June 20 is legally the final day for payment without penalty, unless the limit is extended by action of the board.

It is the usual custom to grant such extension, and allow from two weeks to 30 days additional time.

### AMERICAN SHIPS TO RUSH AID

Minister at Canton Asks for Speedy Protection

CITY UNDER BOMBARDMENT

Extent of Damage to Yankee Property is Unknown

PEKING — (Associated Press) — Three American buildings in Canton were struck by shells during a severe bombardment of the city by the gunboats of Sun Yat Sen, the south China leader, who has been trying futilely to recapture his stronghold.

Jacob Gould Schurman, the American minister, has asked Rear Admiral Strauss to rush protection to Canton and American gunboats are expected to proceed there.

Word that Americans in Canton were endangered received at the legation here today in a message from the American consul at Canton.

The extent of the damage to American property was not stated. The consul has protested to Sun Yat Sen against indiscriminate firing along the Bund, the macadamized way on the water front.

### DE VALERA GOES DOWN IN DEFEAT

44 Treaty Men Elected to Irish Parliament

DUBLIN — (Associated Press) — The feature of the parliamentary elections, on the basis of results thus far known, is the preponderance of the vote in favor of those candidates who favor the Anglo-Irish treaty.

An analysis of the voting, made possible by the proportional representation system, shows a majority of seven to one in favor of the treaty in Dublin city, four to one in Cork city and three to one in the Dublin University.

The second preferences of the labor voters in Cork city were in proportion of more than 10 to 1 in favor of the treaty.

DEFINITE RESULTS

The members definitely elected include 37 treaty advocates, 21 opposed to the treaty, five labor candidates and one independent.

Results thus far in Dublin-co show that twenty pro-treaty members of the Sinn Fein panel, four independent favoring the treaty, six laborites and five anti-treaty panel designates were successful.

Before the election Dublin city's twelve seats in the Dail were held by seven treaty advocates and five by anti-t. The results leave the seven treatyists, but transfer four of the opposition seats to independent candidates, all of whom favor the treaty and one of whom is a laborite.

The only adherent of Eamon De Valera to come thru safely is Sean O'Connell (John O'Kelly), former Sinn Fein representative in Paris.

The defeat of Mrs. Tom Clark and Countess Markievicz caused surprise.

MELLOWES DEFEATED

Liam Mellowes, participant in the Easter Week fighting who escaped to America and later became the leader of the uncompromising Republicans in the Dail Eireann, was defeated in a provincial district.

Mellowes has been the moving spirit with Rory O'Connor in the dissentient section of the Irish Republican army. His failure to secure re-election may leave him in a more powerful position outside the new parliament than he held in the Dail Eireann.

Rory O'Connor is understood to have sent some sort of ultimatum to the Irish Republican army headquarters the staff that he is compelled to terminate the negotiations for unification of the army, which have been in progress and that he will resume complete liberty of action.

Many rumors are current in connection with O'Connor's step, including gossip of an impending split in the army.

Meanwhile the truce between the factions headed by Michael Collins and Mr. De Valera seems universally regarded as dead, although it is still nominally in existence.

The elections in Dublin city resulted in the loss of four Republican seats to independent treatyites.

### TEACHER TEACHES TO FORGET

MADemoiselle FRANCOIS CARMINES, TEACHER OF CHICAGO'S RICH, AND ONE OF HER MILLIONAIRE PUPILS.

CHICAGO — The teacher who instructs your "Bud" or "Sis" in the school around the corner is trying to make them remember — remember facts about reading and writing and spelling and numbers.

But Mademoiselle Francois Carmines, Chicago's most unusual teacher, who conducts a private school in the exclusive Gold Coast section, is trying to make her pupils forget — Forget for one thing — that they're rich!

"Rich children are not to be envied," says Mademoiselle Carmines, "because often their lives are lonesome and sad. For myself, I wouldn't be the child of a rich family for anything in the world."

Mademoiselle Carmines, a French-born teacher, is the only teacher in Chicago who instructs the children of the rich in the art of forgetting.

### "CHAINED WOMEN" THRU FEAR

Nebraska Kidnapers Tells His Story After Capture

RAWLINGS, Wyoming — (Associated Press) — "Fear that they would notify the police that he had in his possession stolen jewelry led him to hold two Omaha women in chains for 36 hours, Fred Brown, shot and captured by Wyoming officers after a chase from Nebraska, declared in a statement to a newspaper man here today.

Brown, who is at the state prison hospital, is recovering from a bullet wound inflicted during his capture and will be returned to Omaha to answer several charges.

"This all began in Omaha soon after I had visited a resort known as the 'Gardens,' where I met a woman who accompanied me to my home where she visited me many times in the next four months," Brown said.

"Once she brought a lady friend to my house where both proceeded to make themselves at home.

"Upon returning to the house quietly I saw that they had been snooping around and found a bottle of jewelry that I had hidden. I heard them say that I must be a thief with all that jewelry and threatened to tell the police. There was only one thing for me to do — chain them up until I could dispose of the jewelry to a fence and make a getaway.

"I did this but one of the women managed to attract the attention of a man going past. This fool butted in and I had to stick him up and treat him as I had the women. I only intended to hold them until I had disposed of the jewelry and some other junk to the fence. When I returned I saw he had broken loose. I heard the officers at the front door and beat it for the weeds."

### ODD FELLOWS GRAND LODGE OPENS SESSION

CLEVELAND — The Grand Lodge of Ohio, Independent Order of Odd Fellows and the Ohio Rebekah Assembly, the ladies' auxiliary, opened formally today and will continue thru Friday. A reception was held last night.

A public memorial service preceded the afternoon business session. An entertainment by sixty-three children from the Odd Fellows' Home at Springfield was on the evening program.

### NICHOLAS LONGWORTH'S MOTHER CRITICALLY ILL

CINCINNATI — Summoned home because of the critical illness of his mother, Mrs. Nicholas Longworth, Sr., Congressman Nicholas Longworth, arrived in Cincinnati today.

Mrs. Longworth is suffering from pneumonia. Her condition was reported unchanged early today.

### TEXAS BORDER HIT BY DELUGE

Twenty-one Thousand Acres Already Under Water

2 MEXICAN VILLAGES SWEEPED

City of Eighteen Thousand Inhabitants Surrounded

SAN ANTONIO, Texas — (Associated Press) — Twenty-one thousand acres of Rio Grande Valley land with crops valued at \$2,500,000, flooded in Hidalgo-co, a fresh rise in the lower stretches of the Rio Grande as the result of flood waters which came down late yesterday afternoon from the San Juan river in Mexico, while the cloudburst flood of the upper river is nearing its crest at Laredo, 153 miles up stream, summarized the border flood situation early today.

Meanwhile the fate of 18,000 inhabitants of Piedras Negras, Mexico, across the river from Eagle Pass, isolated since railroad and highway bridges were swept out Sunday night, is causing grave concern. The city is surrounded by water and the food supply is thought to be short.

SPREAD OF FLOOD

The flood stage at Laredo this morning was 27 feet and rising. Late last night a stage of forty feet was reported at Palaflo, 82 miles up stream and that border village was threatened with inundation. Apparently the flood is traveling at the rate of 13 miles an hour. Its crest probably will not reach the swollen stretches of the lower Rio Grande before late Wednesday.

TOWNS THREATENED

That section, situated in Starr, Hidalgo and Cameron cos., contains nearly twenty prosperous towns and is a highly developed agricultural region settled largely by farmers from the middle western states. The total population exceeds 100,000. A warning to the district has been made by J. H. Jarboe, local weather observer, stating that the flood crest coming down from the northwest is six feet higher than the record mark 33 years ago.

From the Mexican side of the river it is reported that the towns of Sabinas and Alamo de the Sabinas river were practically destroyed. The Sabinas is a tributary of the Rio Grande.

### BATTERY D GETS FOUR GUNS

Two Machine Guns and Other Equipment—Seek Range

Four French "75s," the "big little" cannon that turned back the Germans on the Meuse in 1914, have arrived in Lima along with other military equipment for Battery D, Captain Calvin Selfridge announced. The total value of ordnance shipped is \$50,000.

Beside the "75s," two machine guns and 82 revolvers and miscellaneous equipment was received.

The local battery now has complete equipment and can hold mounted drills. Selfridge is seeking a range in the country where target practice can be held.

The guns can be fired so as to hit objects with accuracy at distances of four to seven miles.

"When we practice," declared Selfridge, "the gun will be in one town and the target in another. That is, if we are successful in finding a range."

### BOYS DISAPPEAR

Police Blame Call of Adventure For Runaways

Vacation time and youths hear the call of adventure. Police ascribe a number of disappearances to the lure of the outdoors.

William Austin of Algor told police his son, John Austin, 16 and a chum, Thomas Canfield, left home with the intention of going to Kansas. They were supposed to have been at the Erie depot here, Monday night, but search failed to reveal them. It is believed they slipped out sooner than was anticipated.

Search for Nick Dietric, 17, Detroit, whose father said he ran away from home, so far, has failed to bring the lad to light. He is believed to have come here.

### ARMY CORPS TRANSFERRED

COLUMBUS — Transfer of the headquarters of the fifth army corps from Fort Benjamin Harrison, Indiana, to the Columbus barracks was formally proclaimed this morning by a salute of thirteen guns in honor to Major General George W. Read, corps commander. Complete transfer of the headquarters is expected to be accomplished this week.

## 50,000 BATTLE TO CHECK FLOOD

Destruction Threatens Residents of Imperial Valley

### BIG SNOWS CAUSE OVERFLOW

Colorado River Crisis Expected by Week's End

(By JACK JUNGMEYER)

EL CENTRO, Cal. — The most serious flood threat of years hangs over the 50,000 residents and \$73,000,000 in property of Imperial Valley as the Colorado River rises toward the critical stage expected June 23 to 30.

The peril is due to an exceptionally heavy winter snowfall in the upper river region. The snow thus far has been slowly liberated but a protracted warm spell would send it down upon the delta country in a destructive deluge.

Despite new flood defenses, considerable preliminary run-off and failure of early waters to reach the stage officially forecasted, the valley is uneasy and is preparing for an emergency.

Dread of being wiped out haunts Imperial Valley, largest and richest reclaimed area in America.

It is to eliminate this annually recurring menace that southern California first urged the flood-control dam at Boulder Canyon. Until that is erected, the valley insists, there can be no permanent security.

### BUILD EMPIRE FROM DESERT

The reclamation and settlement of this area, once a blazing desert, a death trap and declared uninhabitable by the government, is one of the world's pioneering epics. Dauntless spirit and engineering genius by the magic of dyked water have created an empire of the size of Connecticut.

Thirst, fierce heat, sand blasts, loneliness, life in tents by men and women who would not be beaten—that was the picture two decades ago.

But always these people have lived below the level of the river that seasonally threatens to engulf them.

For centuries the river has been building up its bed on silt until, encircling the valley, it rode in places sky-scrapers—high above adjacent ranches and towns, seeking weak spots to break thru levees.

### VALLEY MENACED IN 1905-6

In 1905-6 it went thru, gashing a new channel into the heart of the valley and for weeks threatened to convert Imperial Valley into an ocean until it was literally lifted back into its bed by the Herculean effort of the Southern Pacific Railroad organization and an army of men at a cost of more than \$2,000,000.

Last year there were breaks causing considerable damage. This spring, further up the river, freshets inundated 40,000 acres and caused an estimated damage of more than \$1,000,000.

Working feverishly against the menace of heavy snows in Colorado and Wyoming, Imperial Valley recently completed the Pescadero cut which at present is diverting two-thirds of the river flow away from the valley.

**UNBROKEN DYKE DEFENSE**  
Besides, an unbroken line of dyke defense for the first time has been constructed covering weak spots on the levee.

The government flood prediction set at June 23 anticipates a high water stage of 27 feet at Yuma with a discharge of 110,000 second feet of water or less than half the volume earlier predicted because of slow mountain run-off.

The danger mark at Yuma is 22 feet, reached last year with less snow but quicker discharge. The danger seems somewhat mitigated but Imperial Valley people don't count too much on the expected for they have too often faced the unexpected.

The Southern Pacific Railroad, savior of the valley in 1906, is prepared for an emergency call as well as other large concerns and ranchers and town folk, banded in defensive organizations.

When a call is broadcasted by telephone, men, machinery and material are concentrated on the threatened spot with military precision. Women carry on field work while men battle raging waters.

It's an old story in Imperial Valley where a battle and a march behind the plow have won 500,000 acres of irrigated land, \$50,000,000 in annual produce and the world's richest soil production by the acre from what 25 years ago was an inferno.

### CIGARETTE DEALERS PAY TAXES, HUNDRED PER CENT

Practically 100 per cent of dealers in Allen-co handling cigarettes, have renewed their licenses, records in the office of Harry E. Watkins, county treasurer show.

Tuesday was the final day for paying license fees of \$50. With few exceptions all of the 170 dealers have paid their fee. The others are expected to do so before the office closes, Tuesday night.

Monday, Treasurer Watkins, collected taxes at Bluffton, and Thursday and Friday he will make collections at Delphos.

### CONVICTED ON WET CHARGE APPEAL IS FILED BY LUCAS,

Appeal from the decision of criminal court in the matter of a conviction of J. W. Lucas, alleged liquor law violator, was filed in common pleas court, Tuesday.

Error is charged, in that Judge Emmett J. Jackson, who presides in criminal court, refused to admit evidence in behalf of the accused, and over ruled motions to dismiss, to quash, and to direct the verdict for the defendant.

### CHARGES "COUSING"

Paul Cole, 18, of 812 1/2 S. Main-st., is held at city jail on a charge of disorderly conduct. The charge was preferred by Arthur Ward, S. Main-st., who says he was using profane language within the hearing of

## COUNTY, CITY KICK DOG AROUND

Sheriff Denies Responsibility For Canine Elimination

### AFFIDAVITS MUST BE FILED

Commissioners Consider Providing Pound For Animals

Assertions made by Manager Clarence Bingham, placing responsibility on Sheriff Charles W. Baxter for the number of untagged dogs running at large in Lima, were disputed by Baxter Tuesday.

Manager Bingham claims that it is the duty of the Sheriff to seize and impound all stray dogs.

Baxter replies that it is no more his duty than it is that of the police. Moreover, he declares that even though he is sheriff, he cannot go around shooting dogs promiscuously. They must be taken up and held three days, and then killed if not claimed by owners, he says.

### AGREE ON ONE POINT

Baxter and Bingham agree on one point, altho from different angles. It is that an affidavit is necessary to allow the sheriff to proceed.

Bingham says, it is the one way to force the sheriff to do his duty. Baxter declares if affidavits are filed complaining of strays, it will clear the way for him to proceed.

Bingham says complaints are coming in daily from citizens. Baxter, says he has one complaint, from C. P. Morey, 402 E. Kibby-st. Morey wanted him to come and shoot the animal.

"I told him to shoot it himself or kick it off the porch," Baxter is said to have told the complainant. "I am afraid it will bite me," Morey replied.

"Well it might bite me, too," declared Baxter.

Manager Bingham in relating the incident, says a dog was lying on Morey's porch, and Baxter would not come and get it.

"We are trying to cut this red tap," said Bingham. "Police have been calling unlicensed dogs to attention of the sheriff, but he has done nothing."

### HAS NO POUND

Baxter says there is no pound for keeping strays, as required by law. It is up to the county commissioners to provide one.

"We have often talked the matter over," said A. J. Gray, but find there is little complaint on account of dogs. I wonder what next the city will find to talk about. However, we will talk the matter over."

Gray is of the opinion that all dogs should be licensed, and that savage or mad dogs should be killed. "There is," he said, "no reason to get hysterical about the matter. I'm sure most of the dogs are harmless. We've heard no complaints."

Records at the office of C. R. Phillips, county auditor show that the number of licenses issued to dog owners is less for 1922 than for 1921.

In 1921 licenses were applied for by owners of 3,493 canines. In the first six months period of 1922, only 2,849 dogs were licensed.

## PRIEST 25 YEARS, IS HONORED

Silver Anniversary of Rev. Plummans' Ordination Celebrated

### FATHER IS BANQUETED

High Dignitaries Attend and Participate in Ceremonies

Twenty-five years ago, in St. Mary's Catholic church in Fort Wayne, Rev. Father Leonard Plummans celebrated his first mass.

The ceremonies of those days were lived over again by Father Plummans at St. John's Catholic church Tuesday, where he is now pastor. The occasion was celebration of his twenty-five years of service in the priesthood.

At the time of the celebration of the first mass, Rev. Father Edward Muenich, Stratton, Col., served as deacon. He was present at the jubilee and gave the sermon at the mass in honor of the celebration, Tuesday.

**ORDAINED 25 YEARS**  
A quarter of a century ago on June 17, Father Plummans was ordained in Cincinnati. He celebrated his first mass on June 20.

The Rt. Rev. Samuel Stritch, bishop of Toledo diocese, assisted at the mass and gave the greeting at the close of the services.

St. John's church was filled with parishioners, members of the graduating class of St. John's high school, who on Monday night occupied the stage of action here, and visiting priests, when the mass in honor of the occasion, opened Tuesday.

Rev. Father Leonard Plummans was celebrant. Rev. Father J. Arnoldi, Ottoville, was deacon of the mass and Rev. Father C. Renck, Crestline, sub-deacon.

Masters of ceremonies were John Bruhl and Francis Miller, student seminarians of St. John's church.

Baskets of June roses and summer flowers occupied every pillar of the church, which was decorated in silver, in honor of the silver jubilee of the pastor.

### HOLD BANQUET

At the close of the mass, Rev. Father Plummans and his visitors went to the Elks' home, where all were guests of Father Plummans at an elaborate banquet.

The tables were laid in the form of a cross. Above them was symbolized a huge floral bell. As the host and visitors marched in to the banquet hall, St. John's orchestra played "The Star Spangled Banner."

Gathered about the tables to celebrate the event with Rev. Father Plummans were Bishop Samuel Stritch, Toledo; Rev. Fathers J. F. Frommberg, Ottoville; F. J. Straub, Wauseon; C. F. Renck, The Bend, Ohio; James P. Clark, and John J. Prendergast, both of St. Gerard's, Lima; H. A. Bushkuhl, Richfield Center; Joseph Ludwig, Antwerp; Alfred Metzger, Bryan; A. J. ## REVEREND STEEVES HELD FOR TRAFFIC VIOLATION

Rev. Warren L. Steeves, 1027 Faurot-av., was among the alleged traffic violators booked at police headquarters, Tuesday morning.

The reverend gentleman is charged with parking without tail light. He had been registered May 5, for parking in a safety zone, but that charge was dismissed.

Ralph Bender, 901 E. Elizabeth-st., parked his auto with no lights and had only one tag and that a paper one, police say.

Theodore (Slur), 106 Euclid-av., is accused of operating an auto without license tags.

Peter Madonia, 939 Greenlawn-av., drew a \$10 fine in criminal court Monday afternoon for speeding at 35 miles an hour.

## DEFENSE IN PREACHER MURDER TRIAL RESTS

CHARLESTOWN, W. Va. — The defense rests its case today in the trial of Rev. J. E. Wilburn, Baptist preacher of Blair, W. Va., charged with the killing of Deputy Sheriff John Gore in the Logan-co mine war last summer.

Wilburn was the final witness for the defense. The prosecution then began its rebuttal with Governor E. F. Morgan as the first witness.

Wilburn denied having heard miners at Blair discuss plans to invade Logan-co and to destroy the pro-democratic martial law in Mingo-co.

Governor Morgan said he acted on a request of the sheriff of Kanawha-co and prepared to get federal troops for an emergency.

## HAMILTON WILL HANDLE COMPENSATION FOR DEAD WAR VETS; CLAIM FILED

Claims for state compensation for deceased war veterans will be handled thru the probate court, Judge J. H. Hamilton was notified, Tuesday.

The object in placing the matter under charge of the court is as a matter of protection, as the amount due the war veteran is viewed as an estate.

Ben S. Rutledge, 744 S. Pine-st., filed the first application. His son George H. Rutledge, 18, was killed in action July 28, 1918. The father will receive \$120 compensation.

## THIRTEEN ARE GRADUATED AT ST. JOHNS HIGH SCHOOL

Thirteen seniors received their diplomas at the graduation exercises of the St. Johns high school Monday night. The class was the thirtieth to be graduated.

An inspirational address was given by Rev. Leonard Plummans, pastor of the St. Johns church. Special music by the school children featured the lengthy program.

## CHANGES MADE IN DIOCESE

Rev. N. T. Bouschere Made Curate of St. Rose, Lima

### Sweeping changes in pastorates and assistant pastorates of various Catholic churches of the Toledo diocese were announced, Monday afternoon.

As a result, Rev. N. T. Bouschere, of Sacred Heart church, Toledo, becomes curate of St. Rose Catholic church, Lima.

Rev. Gerald Dunn, son of Mrs. Mary Dunn, W. McKibben-st., was assigned to St. Patrick's church, Toledo, as curate and the Rev. William Killoran, son of Mr. and Mrs. James Killoran, Richie-av., was made curate at Good Shepherd church, Toledo.

The Rev. Father Slattery, formerly stationed here, was sent from Archdiocese of Van Wert. The Rev. W. B. Sossong, former assistant at St. John's, Lima, was transferred from Tiffin to Miersville.

The Rev. Father Bouschere is expected to assume his duties at St. Rose church at once.

**MISSING LINK TO BE PAVED**

Will Improve Stretch Between City and McBeth's Park

**"THIS YEAR, IF POSSIBLE"**

Hartline's Plea to State Department Meets Success

Construction of about one mile of paving along Spencerville rd beginning at the corporation line and extending to McBeth's park, is a unit that may be added to the 1922 state road program for Allen-co, Lima Au- to club officials hope.

The stretch connects at McBeth park with the paved road leading past the Shawnee Country club, and is a much traveled route. Originally the distance was included in the 1922 program but was lopped off by Leon C Herriek, Director of High- ways.

Recently, however, efforts have been redoubled to have the section go in this year. Joe C. Hartline pres- ident of the club has made several trips to Columbus to talk about the road.

**MEETS SUCCESS**

Success seems to have crowned his efforts, for on Tuesday, Grover C. Clements, division engineer, said that he had been notified that the road was to go in this year, if possible.

It is badly needed to link up Lima's overlow in Shawnee-tp, with the city," he declared.

Considerable savings have been made by the state on the letting of roads this year. In many cases the bids have gone way under the esti- mates.

County commissioners, road boost- ers and the Lima Auto Club, are en- deavoring to have the money saved on the 1922 program in Allen-co, reapportioned for construction of additional roads.

Altho bids have been received by the state highway department for section L-3, on the Dixie Highway north, the award has not been made. Neither has a definite award been made on the Dixie south.

**BIDS RECEIVED**

Bids on the Dixie north, including the much disputed section contain- ing "Dead Man's Crossing," are L. L. Climer, Bluffton, low on as- phalt macadam, \$65,844.55, oil tar treatment, same figures, brick \$121,484.26. Action Brothers, Vaughns- ville, concrete \$93,685.11.

With the sale of the Dixie complet- ed, there will remain only the Elida to Delphos section of the Harding Highway to be sold.

**HEARTBURN AND CONSTIPATION**

They Quickly Make One Nervous and Sleepless,

Heartburn is simply an indication of the manufacture of poisonous acid and gas in the stomach. The throat becomes the chimney of the stomach through which some of the poisonous gas es- caping gives one a foul breath and causes great pain at times. Usually where one has this symptom of stomach trouble it is found that the sufferer is constipated which adds to the physical discomfort and the danger of a general physical breakdown. It is suffering from indigestion and constipation and especially when there is ex- cessive acid a family remedy that quickly regulates and restores them to health if they will just get it and it.

From Muskegon, Mich., Mrs. Grignon writes that she was a great sufferer from heartburn and constipation. She says that after eating, gas would form in her stomach, giving her heartburn and sometimes the gas distended her so that she had terrible pains in the shoulder blades and around her heart. Then from less than one full bottle she found such quick and certain relief that she slept soundly, ate anything without discomfort and had no return of the trouble when she wrote us. You can get Nerv-Work at any drug store. It is always on sale dollar a bottle in this city—one authorized to give the money back if the first bottle fails to give satisfac- tion.

Nerv-Work is sold and recommend- ed by Hunter's & Sons, Lima, C. M. Young, Van Wert, Gerson's Drug Store, Pharmacy, Bellefontaine, Minzel's De- fiance, King & Stalickamp, Delphos.

## TRADE EXPANSION IS FORECAST

Expected to Result from Mexican Debt Agreement

### OPENS BUSINESS CHANNELS

Considerable Growth in Exports Seen by Forbes

(BY B. C. FORBES)

NEW YORK — (Special) — The agreement reached for the handling of Mexico's foreign debt, thus paving the way for recognition by the United States government, is a financial and business event of the greatest moment.

The prospects are that trade between the two countries will very greatly expand. Mexicans can profitably use large quantities of American manufactures of various kinds, and our business leaders are determined to develop this potential market to the limit in order to find an outlet for surplus productive capacity. Mexicans will now find it easier to raise capital to facilitate purchases from us.

Altho last month's exports decreased \$10,000,000 and imports increased \$37,000,000 over the previous month, the probability is that our foreign trade will shortly pick up. The principal foreign exchanges declined last week following the failure of German international loan negotiations; but in the highest circles the feeling is that both Germany and France will now be more disposed to remove obstacles to a huge flotation. There is at least a prospect that events will move fairly rapidly and that by fall the proposed German loan will become feasible. In that event not only would exchanges be greatly helped, but the way would be opened for much freer buying of American commodities and manufactures.

Meanwhile, new loans are periodically being floated in this country for various foreign countries and it can be taken for granted that a goodly part of the money thus raised is devoted to paying for American products. In view of the continued superabundance of idle funds and the low interest rates now ruling in this country, further lending to foreigners can be looked for, thus strengthening the ability of the borrowers to make purchases here.

The business trend at home continues in the right direction, despite several obstacles and uncertainties of moment. These include the protracted coal strike, which cannot fail to become more and more of a retarding influence unless settled shortly; the rising threats of railway workers to strike following announcement of wage cuts for one group of workers after another; the growing bitterness over tariff developments; the uneasiness in financial circles over bonus tactics at Washington; increasing doubts as to the effects of the coming fall elections; and latterly rather sharp downward fluctuations in the stock market.

Trade currents last week flowed along the channels we have been becoming familiar with.

Money rates, following the reduction in the bank of England rate to 1 percent below the federal reserve bank rate here, become still easier. Government and other gilt-edged bonds moved upwards and the professional bear operators in the stock market didn't have things all their own way. So far as known, the week's new security offerings were reasonably well absorbed.

Encouraging news emanates from the steel industry, the automobile trade and rubber business, the building industry, most branches of the textile trade, the sugar industry, the cotton market, the oil industry, the silk market and other lines.

Railway earnings are on the up-grade and idle cars on the decrease, with prospects that traffic will experience at least moderate expansion after lower rates take effect on July 1, and also after the coal mines resume full-speed operations. Should no railway strike break out, the outlook for the railways and for railway securities is calculated to become distinctly bright.

The period of dividend reductions as well as of wholesale commercial failures, is about at an end. Already dividend increases and resummations outnumber reductions and cessations. The second half of the year may bring several dividend increases by important railway companies as well as by corporations engaged in the industries which have already undergone marked improvement. Inauguration of a cash dividend by a large oil company last week may be regarded as significant.

The summer months, as a matter of fact, promises to be less down than had been feared. Four important considerations in this connection are: Stocks of goods are extremely light, purchasing power is being broadened by increased employment, merchants and other buyers are being spurred into somewhat greater activity by the upward trend in the price level; and the wherewithal to operate more freely is now readily furnished sound concerns by banks.

Also, and not least important, confidence in the genuineness of the improvement in general business is steadily gaining. Dun's review observes. The most significant feature is the change in the main question from, "has business improved?" to, "how far will the improvement go?" This is a change indeed, from the days when the encouraging forecasts presented in this column excited little but criticism and even ridicule.

Of course, while we are justified in figuring upon continuation of business improvement, let no individual or firm or corporation assume that orders and profits henceforth will fall into its lap without necessity for exerting the most industrious and intelligent effort.

Answer to yesterday's puzzle: "The Capture of Vicksburg."

## PAGEANT PLANS MOBILIZATION

Date Changed From Tuesday Night to Wednesday

### MANY ASSIGNED PARTS

Thousands Already to Participate in Big Event

A change has been made in the time of the first mobilization of those to take part in the Allen-co Historical Pageant, June 20 to July 4.

Participants will gather at Faurst park Wednesday at 7:30 p. m. for instructions. It had been desired to have them meet on Tuesday evening but certain conditions made this impossible.

All persons who have enrolled for the pageant are asked to be present at the mobilization so that they may be assigned to their respective parts. MANY GIVEN PARTS

A number of the groups have already been assigned and will not be required to be present. The majority of participants have not been given their parts, however.

Those who desire to take part in the pageant but who have not yet handed in their names are asked to be at the park. Opportunity to enroll will be given and parts assigned.

Working plans were further developed at a meeting of the captains at the chamber of commerce auditorium, Monday night. More than 1,000 persons have enrolled in the pageant. By the time it takes place 2,000 will be working. J. L. Shaffer, director, states.

Many merchants have signified their intention of decorating their windows with articles of historical interest. All persons having such articles, which they will loan for a day, are asked to get in touch with the merchants or with the committee. The pageant phone number is Main 7176.

### DISPLAY LIMA GOODS

A display of "Lima Made" goods is also being planned for the week of the pageant. Lima manufacturers will be given an opportunity to display their goods in the Art hall at the fair grounds.

In this display it is desired to show the development of the manufacturing industry in Lima. All products whether manufactured now or not are desired by the committee.

Signs advertising the pageant have been distributed over the city. It is expected that not only will the citizens of Allen-co be given a better view of their city and county but that a large amount of money will be raised for welfare work.

### AIDS OWN CAUSE

Lad Asks Playground, Then Gives Savings

David Fullerton, pupil in the third grade of Franklin school, believes in practicing what he preaches.

David, in a letter to the Allen-co Child Welfare association, begged for the location of a playground at Market and Baxter-sts. David conceived the idea of turning a back lot, upon which is strewn empty bottles and refuse matter, into a gathering place for the children.

So David took his money to the association, Monday, to assist in carrying out the plans which the welfare association has for the establishment of playgrounds.

Mrs. John W. Roby, chairman of the recreational department of the Child Welfare association, requests that the 75 women who arranged to sell 10 membership tickets each will report to the committee before Friday, as a summing up of the activities of the association is to be made at an executive meeting to be held Friday noon.

CAMPERS MILK HIS COW, HARRY TURNER COMPLAINS

A cow belonging to his mother has been the commissary for a party of campers at the country fair grounds, Harry Turner, 385 E. Eureka-st., reported to police.

They have been milking her every day and he wants it stopped, Turner says.

## MORE CLOUDS, IS PREDICTION

A deathly pallor will continue to hang heavily over Lima and vicinity, the weather man reports. Clouds will continue to deny the earth the full force of the sun's rays, while temperature as a result will be mild, he says.

The lazy feeling that prevails in Lima is directly due to atmospheric conditions, 'tis held.

It would be much easier to take a day off to sleep, more than one person has said but that might affect the vacation periods soon to come into their own.

## FARMERS HANDLE BIG SHIPMENTS

Eight Floors of Livestock Sent Thru County Company

Eight floors of livestock were shipped by Allen-co farmers thru the Allen-co Livestock Co., during the month of May, figures issued by the company, Tuesday, showed.

This stock was shipped by 93 farmers. Its total value was \$11,965.92. The average marketing expense per 100 pounds was 76 cents including shrinkage.

Besides the shipments made by the company five carloads of cattle were sold to Cleveland buyers to be shipped by them. There were 95 cattle in the lot and they brought more than \$6,650.

Farmers thruout the state shipped 924 floors of stock during the month. The total value was \$1,370,810.62 and 8,814 shippers contributed. Wood-co led with 64 floors shipped.

Arrangements are being completed whereby Allen-co farmers will be able to buy their feeders direct from Texas ranches, C. F. Mertz, manager of the company, said Tuesday.

Heretofore the feeders have been purchased in Chicago. This was an expensive proposition and in many cases the stock contracted disease or became stunted while there, it is said.

It is proposed to have all farmers, desiring to purchase stock for feeding, list their requirements with the company and a buyer will be sent to Texas to obtain the grades and quantity of cattle needed.

Direct shipment will be made to Lima or other central points in the county. A meeting to determine the requirements will be held the first part of September after farmers are able to estimate the amount of feed they will have.

Between 15 and 20 farmers have tentatively decided to buy feeders, Mertz said. It is believed the average number to be taken by each of these farmers will be 25. Others are expected to make their requirements known later.

### DEMOCRATIC RACE CLOSE

Woman May Win for Senate in Gopher State

ST. PAUL, Minn. — (Associated Press) — With the outcome of the major Republican contests apparently determined, interest in the Minnesota primary turned today to the race Mrs. Anna Dickie Olesen made for the Democratic senatorial nomination.

Reports available early today showed her in a nip-and-tuck contest with Thomas J. Meighen, one of her two opponents, and it became evident that the outcome would be in doubt until many more precincts had reported.

Renomination of Senator Frank B. Kellogg, Governor J. A. O. Preus and other Republican state officers, with the possible exception of clerk of the supreme court, was indicated in reports from 200 precincts and their success was claimed by the St. Paul Pioneer Press which had supported their candidacy.

### WOMAN IN LEAD

The contest for clerk of the supreme court between Miss Grace F. Kaorcher, endorsed by the Republican state convention, and Herman Mueller, incumbent, elected two years ago with Non-Partisan League endorsement, seemed close as tabulation of returns was resumed today altho Miss Kaorcher then had a 4 to 3 lead.

Neither Mrs. Olesen nor Mr. Meighen were prepared to make a statement as they preferred to wait compilation of more reports.

First reports gave Mrs. Olesen a marked advantage and for some time she held a lead, only to lose it as the Ramsey-co (St. Paul) vote began to come in. The first she and then Meighen would take first place.

It is the first time in the history of the state—local politicians say it is the first in the history of the country—that a woman has sought the senatorial nomination of a major political party and in Mrs. Olesen's case she had the endorsement of the Democratic convention.

Born in Minnesota 36 years ago, Mrs. Olesen lived on a farm in the southern part of the state until she married Peter Olesen, now superintendent of city schools at Cloquet. They have one child, Mary, 14 years old, who has taken an active interest in her mother's entry into politics.

In the Republican senatorial race, Ernest Lundeen of Minneapolis, former congressman, gave Senator Kellogg the closest race, altho reports from the first 200 precincts showed Kellogg leading two to one. The same ratio was maintained by Governor Preus, whose opponent was Franklin F. Ellsworth.

Further returns today from the third congressional district indicated that the contests between Representatives Charles D. Davis and Reuben Thoren, the latter endorsed by the district convention, would be closer than first reports had indicated.

There were no contests for the Democratic congressional nominations. In the third district Mrs. Lillian Cox Gault, mayor of St. Peter, is the nominee.

### HALE WINS OUT

PORTLAND, Maine — (Associated Press) — Senator Frederick Hale, Republican, without making a personal campaign, won a signal victory in the state primaries yesterday. The vote cast for him was larger than the total for his two opponents, former Congressman Frank E. Guernsey and former State Senator Howard Davies and his plurality over Guernsey was nearly 20,000. Davies ran a poor third.

Governor Percival P. Baxter, Republican, was renominated by a plurality of 25,000 over John P. Deering with Leon F. Higgins trailing.

The vote of 513 election precincts out of 635 in the state, representing 491 out of 520 cities and towns was: For senator—Davis, 7,230; Guernsey, 16,699; Hale, 36,196.

For governor — Baxter, 40,552; Deering, 14,916; Higgins, 10,759.

The total registered vote of the missing precincts, mostly very small towns, was too small to affect the result.

Senator Hale carried all but two counties and all but three of the cities.

Congressmen Beedy, White, Nelson and Hervey, all Republicans, were renominated without opposition.

On the Democratic ticket there were only minor contests. The Democrats nominated for senator former Governor Oakley C. Curtis, for governor former State Attorney General William R. Pattengall and for congress Louis A. Donahue, Bertrand G. McIntire, Leon O. Tebbett and James W. Sewell.

### AUTO STOLEN AT KENTON

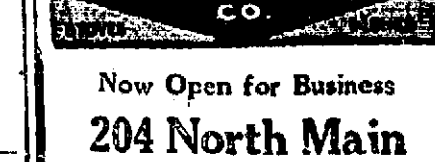

FOUND BY LIMA POLICE

Lima police Monday night recovered a Ford auto which is said by Kenton authorities to have been stolen from the Tait-Bulck auto agency in Kenton.

A report was received here a week ago that Kenton officers were looking for Dan Shockey, charged with taking the machine. Monday night local police were informed the car was recovered at Mansfield.

Shockey's admission that he also abandoned a Ford here led police to the Lincoln Highway garage, 120 E. Market-st., where the machine was found.

## EATS LAST MEAL WITH FAMILY

Youth Pays Death Penalty in Ohio Electric Chair

### COLUMBUS — (Associated Press)

With a declaration of innocence his last audible words, John H. Gackenbach, 21, of Franklin, Pa., paid the death penalty in the electric chair at Ohio penitentiary early today for his part in the murder of John C. Boone, 72, in a milk distributing store in Marion, February 8, last. Boone was employed as a watchman at the store.

Strapped in the chair, Gackenbach's request of Warden P. E. Thomas that he be permitted to make a statement being granted, the condemned youth said:

"I am innocent of this crime. God bless you all."

For the first time in the history of the institution a condemned man ate his last meal with members of his family. His mother, Mrs. Sarah Gackenbach, his sister, Mrs. Oakley

Brink, her husband and child were with him until 5 o'clock last night. Four hours before he died, Gackenbach, in conversation with newspaper men, told of events leading up to his plight.

He said that in company with Edward Baker, 15, they had "burned" their way from Franklin to Marion.

### Parks In Road, Drops To Sleep, Lands In Jail

Jack Riley, 52, R. D. 4, came to town Monday night in a buggy. At least that's what he started to do, police say, but didn't.

The reason was that a bottle of hooch lulled him to sleep on the Elm-st road, they say. With rare presence of mind his nag stopped in the middle of the road.

Traffic was blocked and neighbors complained to Sheriff Charles Baxter that auto drivers were driven profanely by Riley's failure to get out of the way.

Baxter investigated and found a pint of liquor. Riley was brought to city jail and lodged on a charge of possessing illicit liquor.

He will probably be arraigned Wednesday.

### A CAR ON THE ROAD IS WORTH TWO IN THE GARAGE

No matter what price you pay for a car, if you have repair delays when you need it most, it isn't worth the price.

How often have you heard of a FORD falling in an emergency? And there are six million FORDS.

Why not order that FORD car for your own use at once? "Buy a FORD and spend the difference." It pays.

### OPPOSITION HALTS ORDINANCE

Commission Tables Measure Until Later Meeting

### STRIKES EXISTING EVILS

Will Give People Opportunity to Air Views

Opposition to the proposed license ordinance caused it to be tabled by city commissioners at their meeting, Monday night. It will be taken up again at a later meeting.

"Most of the opposition is coming from those who do not understand the purpose and workings of the ordinance. It is a constructive rather than a destructive piece of legislation," C. A. Bingham, city manager said.

"We are trying to make Lima a better, cleaner and more healthful place in which to live," Mayor Harold Cunningham said. "This is one of the ways in which it can be accomplished."

ON BOOKS NOW

Practically all of the provisions of the proposed ordinance are already on the statute books, Manager Bingham asserted. Adoption of the law would add 40 pages from the ordinance books and at the same time afford adequate protection, he adds.

Selling of impure meats, contaminated milk and the elevation of awnings hanging too low are among the things it is desired to legislate against. Uncovered garbage wagons is another evil, Bingham declared.

An informal meeting at which those for and against the proposed ordinance may be heard will be held later in the week, it was decided by the commissioners.

Lack of funds in the sewer, fuel and street cleaning departments necessitated the removal of \$685.98 from the boulevard light department to them.

APPROVE PAVING

A paving resolution for College-ave, from Rice to Hazel-ave, was passed by the commission. Special assessments were also ordered for paving done on portions of Holmes-ave and Ewing-ave, and for a sewer from Lakewood to Kunkle-ave near Woodland-ave were passed.

False reports as to the severity of the municipal court in the prosecution of traffic violations were condemned by the commissioners.

Stories saying that farmers are being discriminated against and fined for traffic regulations they unwittingly break were shown to be untrue by Commissioner Earl Rohn and Manager Bingham.

TO STOP COUGHING AT NIGHT

A summer bronchial cough keeps not only the sufferer but other members of the family awake, Alfred Barker, 1061 Avondale St., El. Liverpool, O., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals. Chas. J. Vorkamp, Main and McKibben Sts.

### STATE GAME PRESERVE ON FARMS IS PLANNED

ST. MARYS — Complete arrangements for a 1,100 acre game preserve near St. Marys will probably be consummated Saturday, between state officials and individual farmers in the vicinity, it has been announced.

Plans under which the state is proceeding provide for a payment of \$1 a year to farmers who lease their land to the state for the purpose of preserving game. The farmers are merely asked to allow pheasants and quails to live on their land unmolested, and that signs be allowed to be installed, prohibiting hunting.

The preserves will be restocked, should final arrangements be made, it has been announced.

### FIVE LABOR BANKS TO BE OPENED

Institutions Are Being Organized in Four Cities

### ONE BOUGHT AT CLEVELAND

Others Located at Chicago, Birmingham, Minneapolis

CLEVELAND — (Associated Press) — Five cooperative labor banks are being organized in the United States, and one was recently opened in Chicago, according to the Locomotive Engineers Journal. Another, the Brotherhood of Locomotive Engineers Cooperative National Bank, has been in existence a year and a half, and its reported resources are nearly \$15,000,000.

The Brotherhood of Locomotive Engineers Holding Company has bought control of the Nottingham Savings and Banking Company of Cleveland, which is capitalized at \$75,000 with reported resources of \$25,000 and has one of the oldest savings bank charters in northern Ohio.

The Brotherhood of Railway and Steamship Clerks has instructed its

grand officers to organize a bank with a probable capital of \$500,000. The executive board of the Order of Railroad Telegraphers has obtained a charter for a bank capitalized at \$500,000 plus \$100,000 surplus.

Workers of Birmingham, Ala., are organizing there the Federated Bank and Trust Company, with a capital stock of \$500,000.

Representatives of the four transportation brotherhoods in Minneapolis, Minn., have applied for a charter for a national bank to be capitalized at \$200,000 in the twin cities.

The new Chicago bank is that of the Amalgamated Clothing Workers, capitalized at \$300,000.

### VICTIM OF FLYING ROCK RECOVERING FROM INJURY

Homer Long, 30, employee of the T. C. Long stone quarry, west of Lima, is recovering at City hospital, from a deep scalp wound he suffered Monday, while at his work. Word from the hospital, Tuesday, was to the effect he had a good night's rest and was much improved.

A large boulder from a quantity of stone which was being taken to the stone crusher room flew from its place on the car and struck him just above the left ear.

Surgeons say he will be able to return to his home in Allentown within a week.

### LIMA LAWYERS ADDRESS DELPHOS KIWANIS CLUB

DELPHOS — John W. Roby, Lima attorney, told Delphos Kiwanians of the defects in the existing tax laws of the states and urged support for remedial measures, Monday, at their regular meeting.

## HURRYING GOOD ROADS

IT WAS a clever move that was made by the Allen County Good Roads council, in the adoption of resolutions, asking that state-aid road work be prosecuted in this county be declared emergency improvements.

A double reason actuated this plan, both of them commendable, it must be admitted, from the standpoint of affording men the opportunity to gain a better income and to hurry highway improvement along to completion. While the law which requires that men employed on public work shall labor only eight hours a day should be enforced, there is no harm whatever in taking advantage of an opportunity afforded by a clause in the same measure which makes it possible to legally set aside its provisions, under certain circumstances.

It is an enactment of law that when public work is of a character declared to be an emergency, the eight-hour law regarding labor does not apply. Primarily, the measure was devised for the protection of the worker, who was paid a stipulated wage for a day's work, but along with the changes that came during the war, labor was placed on the hourly basis, in most cases; paid so much for each hour engaged.

During the long summer days, when many laboring men would willingly work nine hours rather than eight, to increase their income, the law intervenes and says they must not, unless the task is part of an emergency. The Good Roads council has petitioned the state highway department to have county road work now under way be set down as an emergency, to hurry it to completion, for the benefit of the contractor, the laborer and the farmer, to say nothing of bringing to an end as quickly as possible the necessity of cross country motorists making detours where road work is in progress.

Since the proposed plan aids everyone concerned and costs no more, where's the harm?

## RADIO MYSTERY

MRS. HERMAN KOEHLER, of Lakewood, O., deaf for 30 years, puts radio receivers over her ears. She hears a fine broadcast concert and nearly faints. Takes the receivers off. Deafness returns.

Is curative power locked up in Hertzian waves?

Repeatedly you hear of "peculiar things" encountered in radio—unexplainable, freakish events. These are flashes in the darkness, revealing future wonders.

Three greatest mysteries are life, hereafter and wireless.

## WHAT LIMA IS LOSING

THIS city is growing at such a rapid pace the requirement of preparing for the future is becoming more pronounced than ever. In building public improvements, the present alone cannot be safely considered. Provision must be made for growth and expansion that is inevitable.

Nowadays, when water lines or sewers are laid to serve a particular section of the city, the plans must embrace something more than the immediate demand. It must be remembered that building operations are reaching outward constantly and that territory which is barren of structures today may be residence sections tomorrow. With added demands for service, water and sewer lines are overtaxed, unless the future is taken into consideration when the original improvement is made.

So much for that. Lima is losing in a serious manner by reason of the fact that no provision has been made for homes for infant industries, or others well developed and beyond the experimental stage. In other words, there are few available sites and no vacant factory buildings. It is a detriment to the city when manufacturers are forced to pass up Lima as a possible location for a factory, simply because there are no buildings in which the machinery may be located, the work of production started and the employment of men be made possible.

ious manner by reason of the fact that no provision has been made for homes for infant industries, or others well developed and beyond the experimental stage. It is a detriment to the city when manufacturers are forced to pass up Lima as a possible location for a factory, simply because there are no buildings in which the machinery may be located, the work of production started and the employment of men be made possible.

This is one thing that Lima people have apparently overlooked. It is something that should be taken up at once and given serious consideration. Records of the Chamber of Commerce show that Lima is losing great opportunities to add to its industrial growth. Better late than never. Let's start now to do the thing that should have been given attention long ago.

## BOOM IS COMING

MORE bales of cotton were consumed by American mills in May than during May, 1919, during the big boom. Exports also were larger.

Many other industries make favorable reports, including steel and autos.

Profits may be small, but production and consumption are booming. The commercial crop is ripe, ready to be plucked. The business organization that does not go after orders hammer-and-tongs, both by personal salesmanship and advertising—is overlooking a good bet.

The road is clear. Take off the brakes.

## A THOUGHT

As a troubled fountain, and a corrupt spring, so is a righteous man that giveth way before the wicked. —Proverbs 25:26.

The world is thirsting not for theories, but for great good works of faith; for practical solutions of the spiritual difficulties of society; for the harmony of life and light; and wherever these appear, the world will now accept them as gladly bearing the manifest signature of God. —J. H. Thom.

## POEMS YOU WILL ENJOY

BY BERTON BRADLEY

### THE WISE VIRGIN

"Be good, my child, and let who will be clever," Charles Kingsley said that mouthful of advice; But I'd suggest it does no harm whatever To be both good and clever. To be nice A lady doesn't have to be a dumb-bell. Her brains won't hurt her any with a man. "Be good, my child—but do not be a mum-belle. You ought to be as clever as you can!"

"Fine feathers," so the moralists may warn you "Don't make fine birds." And that's no idle word, But feathers that are fine won't make folks scorn you If you are, otherwise, a noble bird! Clothes do not make the man or yet the woman. But they are mostly what the world will scan, And—knowing human nature's very human—The wise dame dresses smartly as she can!

"Beauty is but skin deep," the preachers tell you, And "Handsome is, as handsome does," they say; But just the same, wherever you may dwell, you will learn that beauty isn't in the way. You will not find that it's a waste endeavor To make yourself a pleasant sight to scan, "Be good, my child"—and be as well-dressed, clever, And just about as pretty as you can! (Copyright, 1922)

Common Sense Ways to Keep Well

### SWAT THE FLY

If there is a baby in your home, keep constant vigil against flies. Any fly may carry germs of infantile paralysis. True, the cases in which flies have been proved to be carriers of the disease are few. Still, no risks should be run.

Generally infantile paralysis passes directly from the sick to the well person, yet it may be transmitted by a third, who has been in contact with the victim.

The early symptoms, as a rule, are fever, weakness, fretfulness or irritability and vomiting. Later there is pain in the back, neck, arms or legs, accompanied by great weakness. Often paralysis does not result; these are known as abortive cases. They, however, are as infectious as the others. If paralysis is to occur it usually appears from the second to the fifth day.

The germ or tiny virus of the disease is present in the discharges from the nose, throat and bowels of patients. It may also be present in the noses and throats of healthy children in the same family. Thus it is necessary to keep the children from a family in which there is a case of infantile paralysis away from other children.

All cases of infantile paralysis must be reported to the local department of health, which then placards the house.

During an infantile paralysis epidemic it is well to observe certain rules.

The house or apartment should be kept absolutely clean.

Windows should be screened against flies.

Garbage should not be allowed to

accumulate; its receptacle should be kept tightly covered. All forms of vermin, bed bugs, roaches and body-lice, should be killed. Bodily cleanliness is especially important. The best preventive of infantile paralysis is not patent medicine but absolute cleanliness and a strict observance of those few important rules of hygiene.

# You Can Pay Far More, But—You Can't Get More Than This Heating System Gives You

You can't buy greater comfort—you can't have more healthful conditions in your home in Winter, Spring or Fall than the Convector will give you—simply, surely and ECONOMICALLY. The Convector does far more than simply "heat your home". It is really far more than a heating system—yet is simpler, more compact, more efficient and less costly than any other heating type. It is less trouble—requires less attention and upkeep.

## Here are Nine Reasons Why the Convector Is the System for Your Home

- (1) It warms and VENTILATES every room in your home every hour of the day and night. It "cultures" the air in your home while warming it—provides it with proper moisture.
- (2) It places ventilation absolutely under your control—You can have just as much fresh air as you wish without cold drafts.
- (3) It frees all your living rooms of unsightly, wall obstructing heating apparatus. Every room is easily cleaned. You can arrange your furnishings as you please.
- (4) Absolutely clean heat—no smoke, gas, fuel dust or soot—no dust streaked walls or furnishings.
- (5) SAVES 1-3 to 1-2 ON FUEL BILLS.
- (6) Keeps all radiant heat out of your rooms.
- (7) Heats ample supply of water.
- (8) Installed in one day—burns any fuel—fits any basement.
- (9) WRITTEN GUARANTEE furnished by L. J. MUELLER FURNACE COMPANY with every Convector installed.

### About the Price?

The Mueller Convactor would be the logical heating system, even if it cost MORE than other systems—instead of LESS. Mueller heating systems have been on the market since 1857. They have always been known for QUALITY. Over 200,000 homes and buildings are Mueller heated, today. The Mueller Convactor costs less than any other Mueller system, but is rated the highest from the standpoint of actual efficiency.

We would like to quote you a price right here, but as the Convactor is made in several sizes, we desire to see your home first—and determine the exact size you require.

We are positive we can prove to you that the Mueller Convactor is the best buy in heating systems on the market. The initial investment is low—and the great saving comes with fuel economy.

WE URGE YOU IN ALL FAIRNESS TO YOURSELF TO MAIL THE COUPON ATTACHED—NOW.

Where greeted by a bill-statement from the New Netherlands Bank of New York, okayed by Dee, she having drawn \$20 there in French francs receiving 221. Which I must pay, and seeming much money to spend on the boat. Also came a gay postal from Simon Fishel, then in Venezia at the Palazzo Ducale. He saying his impression of historic Venice is that they live in the past. But Simon had not yet been out in the moon shine in a noble gondola. So, all the morning in my garden back to the hoe, the weeds having concentrated in force along the entire front. The only clean garden I ever did own was at Col. Gale's apartments. And the garden was of purest cement, and never gave me pain.

Launched with my wife, poor wretch, busied with gathering her washings for the week. Thence to the Fordale about the town, and waved to Ed. L. Gordon, the Regent of Rotary. With a gente, wondrous heart and that loyalty which our younger generation seeming falls to breed.

Back and drowed aimlessly at this and that, and thence to see Adolph Weinfeld and inquire about his popular father. Waved to Mine Host Haefer, with his wife on Met-calf taking a constitutional. Out

about Faurot park but such a crowd I never did see. For the flag raising. And heard some singing, very sweet. Out Shawnee way towards the ultra colony, and took a chance dropping in to see what Henry Goeke has in the way of fresh milk, being a farmer. But neither Henry nor even the maid at home. Back over the Metcalf-st bridge and the damned roadway over it still out of repair. With cinders at the Buck-eye pump station so hardby. Broke a spring and shall send the bill to Mayor Brud and Purchasing Agent Harry Osgood.

In the evening dined well and alone, except for my wife who had donned her new headress from the Callahan sisters. And very proud I was of her, which she must not be told. But no one in Jake's Place except Chalmers Brown and his wife, leaving as we started singing our soup.

In the late evening, cranked up the gas wagon again and out the Avenue, in discourse with my wife, picking out the homes which I would buy her. And she pleased to think I would do so as my savings so permit. And deliciously joyful thereat, putting me in fine mood.

So home to read the gas meter, but the Ohio Electric's counter could have given it halfway round the track and then copped the bunt-ing. So, to bed.

# HUNDREDS ARE ENTERTAINED AT COUNTRY CLUB

ONE of the very charming arrangements of the summer season was that of Tuesday, at the Shawnee Country club, when Mrs. R. T. Gregg, Mrs. Roy B. Gregg and Miss Margaret Gregg received several hundred guests at a beautiful rosin luncheon.

The attractive club house was given an added charm by a profusion of Dorothy Perkins' roses and other flowers, arranged in artistic effect on the prettily appointed luncheon tables and throughout the rooms.

In the receiving line with the hostesses was Mrs. A. M. West, of Wilmington, mother of Mrs. Roy Gregg.

A color scheme of pink and white was observed in every appointment detail for the luncheon. Adorning the center of each of the tables was an artistic basket filled with the Dorothy Perkins' roses and greenery. Nut baskets were daintily placed in pink paper mache with a dainty rosebud fastened to each. Place cards also carried out the predominating color scheme of pink and white, a pink rosebud being attached to each.

Through the luncheon hour Harley Holmes and her orchestra played. The orchestra was concealed from view by a lattice work, which was entwined with rosebuds.

Guests for the attractive affair included Mesdames E. C. Adams, Donald McManis, W. L. Algren, Ben Altshuler, Ralph Austin, J. K. Bannister, Roy B. Gregg, J. F. Bannister, Frank Bunt, M. U. ## SUSIE SMART'S ADVICE

Dear Miss Smart:

I AM coming to you with my problem, hoping that you can give me some consolation and comfort. I went with a young man for about four years, but because of conditions at home I was forced to work. It was very hard for me to help support the family and consequently I was obliged to postpone our marriage. I promised him that I would marry him as soon as I felt I was able. Several months ago we had a little argument. My life is spoiled.

UNDER no circumstance do I think it proper for one to sue for breach of promise, Jane. Do you think that money could possibly make things right and restore your happiness? You would derive little satisfaction from securing money from a man who is so unprincipled and dishonest, as to ignore the future happiness of his fiancée and in a moment of haste, marry another. Surely you would not care to make your disappointment known to the world? A suit for breach of promise would injure you in the eyes of others far more than it would injure him.

The only thing you can do is to make the best of the situation and try to forget your disappointment. Be sensible and do not waste your life by mourning something which cannot be rectified. There are many things to interest one here to accomplish something splendid and big and in time you will forget your disappointment.

Dear Miss Smart:

(1) I am a young man 23 years of age and engaged to be going to work in a factory. I do not want to get married now. What can I do to make my fiancée willing to be married later? (2) My fiancée's brother-in-law is at me without reason, saying "somebody's lies." What can I do to prove that I am not a liar? (3) When I go to see my fiancée, what time should I leave?

(1) If your fiancée loves you enough to justify marriage and if you have assured her that you will be able to provide for her properly and comfortably there is no reason why your marriage should be postponed. Ask your fiancée why she wants to delay the wedding, promising her that you will be willing to wait. (2) Go to your fiancée's brother-in-law and in a gentlemanly manner explain the situation to him, telling him that you believe he has been misinformed and that his unfriendly attitude toward you is without foundation. (3) A man of your age should be able to answer this for himself.

Mr. and Mrs. M. J. Lynch and daughters, Misses Margaret and Mary Angeline, Miss Louise Ackerman, Frank Borer, and A. W. Cantwell are among Lima residents who will attend the marriage of Miss Mary Trimpie and Dr. J. C. Nagelson, in Sidney, Thursday morning.

Miss Louise Ackerman, of State-st., was hostess to the members of the Monday Evening Bridge club and a few guests. At the conclusion of the evening of playing with Miss Louise Ackerman holding high score, the hostess served a dainty two course repast. Guests were Misses Abigail Sullivan, Rosalie Slagle and Dorothy Wheeler.

Mrs. H. H. Haley and son, Harold, of W. Elm-st., will leave the latter part of the week for Tulsa, Okla., where they will make their future home. Mr. Haley is manager of the Gems' stores in that city.

Colonel J. L. Sapp and granddaughter, Miss Elta Stauffer, of the Hotel Waldo, left Tuesday morning for Ede Valley, Minn., for an extended fishing trip. They will be joined later by Drs. W. L. Neville, A. Jones and J. W. Dimond.

S. C. D. club will meet Thursday with Mrs. A. O. McPherson, of the Spencerville-Id.

Members of the Mercy Circle of King's Daughters will meet at the entrance to the E. N. Zellitz home in Shawnee Wednesday morning at 10 o'clock. They will then leave by motor for Sandy Beach where they will spend the day with Mrs. C. E. Schell at her summer home.

Mrs. Frank G. Wright, of S. Cole-st., opened her home to the members of the Quilna Bridge and a few guests Monday afternoon. At the close of the playing with Mrs. George S. Wood holding high score among the members and Mrs. F. H. Bentz among the guests, the hostess served a dainty luncheon.

Guests, other than members were Mrs. Frank Kommink, Mrs. Clarence Miller, Mrs. F. H. Bentz, Mrs. Frank H. Downing and Misses Ann and Lillian Taylor.

Mrs. G. S. Wood, of Cole-st., will entertain the club at the next meeting.

Formal announcement of the marriage of Miss Louise Felsner, daughter of Mr. and Mrs. W. J. Felsner, of W. North-st., to John Robert Dewenter, son of F. A. Dewenter, of Bloomington, Ill., will be made at a dinner to be given Tuesday evening in Lafayette, Ind., by Miss Elsie Neuman. The marriage, which was solemnized in the First Presbyterian church, Detroit, January 30th, comes as a complete surprise to the many friends of the charming bride.

Miss Dewenter left Monday for Lafayette, where she will be matron of honor at the wedding of Miss Elsie Neuman to David Lewis Heath, of Indianapolis, Wednesday evening.

## OUR FIRST YEAR

BY A BRIDE

Jack Objects to Accepting the \$3000 From Barnick

"With \$3000 I can pay all those dreadful bills and give Jack his original safety fund of \$1000 and have a bit left," said I to me to I went home. "Why, I can open another checking account—and be independent of my husband!"

Of course I could think of nothing else.

"If only this happened yesterday I thought. Then I could have straightened out all accounts, without bothering Jack."

"And after it was all arranged, I could have told him. And he would have thought me the most extraordinary little business woman ever!"

How would Jack look at it? I'd have to ask him. That was the first thing about being married. When a big thing happened I couldn't decide it for myself. It was necessary for me always to consult my husband!

Jack came home early at my urgent request over the phone. I handed the false pearls to him. He tossed them back to me.

"I don't like them, Peggins! They don't look like yours!"

"But they are!" The originals! The ones I paid for!

And then I gave him the details of the most startling mistake in the story of the jewelry business.

"And to happen to us! When we need it most!" Isn't it wonderful!

Mr. Dewenter and his bride will return to this city the latter part of the week. They will be located in Wisconsin during the summer months and after August 15th will be at home in Bloomington, where the bridegroom is connected with the firm of Dewenter and Company, haberdashers.

Woman's Board of Managers of the City hospital will meet at the hospital, Wednesday at 9 a. m.

## LEARN A WORD A DAY

TODAY'S word is PLENIPOTENTIARY.

It's pronounced—plen-i-po-ten-shi-a-ri, with accent on the first and fourth syllables.

It means a person invested with full power to transact any business; especially a diplomatic agent so equipped. It comes from—Latin "plenus," full; and from "potens," also Latin, meaning to have power.

It's used like this—"The Soviet plenipotentiary at Geneva were not much pleased with the powers' plan for reconstructing Russia."

mighty glad to get out of it by paying poor me \$3000?" I asked. "It's only part of their profit," they're losing when they thought they were \$43,000 short!"

"But I can't see your claim on them, Peggins! Certainly you haven't any moral claim!"

"Didn't I pay what they asked for their beads?" I objected. "I save package worth \$43,000 who was at fault? Not I. I had done all they asked."

"Peggins! Peggins! It's a question of ethics! It's like right and wrong! Plain! A thing's all right or all wrong! This is. Can't you see? Don't you agree?"

SISTER MARY'S KITCHEN

## Chocolate Malted Milk

The favorite soda fountain delicacy, chocolate malted milk, is both delicious and nourishing. But also it's expensive—if you buy it "ready-made" at the corner drug store.

However, you can make it yourself at home very inexpensively. Try this recipe:

CHOCOLATE MALTED MILK. One teaspoon malted milk, 2 tablespoons chocolate sirup, 1 egg, 1-2 cups milk.

Chill sirup, egg and milk before mixing. Put all ingredients in a

pitcher and set in a pan of cracked ice. Beat with a dower beater five minutes.

Chocolate sirup is very convenient to keep on hand. A refreshing drink can be made quickly and easily.

CHOCOLATE SIRUP. One square bitter chocolate, 1 tablespoon sugar, 1 cup water, few grains salt.

Melt chocolate over hot water. Add sugar and boiling water and boil five minutes.

## HOW TO SERVE COOL DRINKS—QUICKLY

Some afternoon when you're called upon to serve a cool drink to unexpected visitors and have nothing prepared you can easily make a refreshing and unique beverage by combining ginger ale and grape juice.

Mix a pint of ginger ale with a cup of grape juice in a shaker or, if you have no shaker, pour them from one pitcher to another several times. Iced tea can be added by using one pint ginger ale, one pint grape juice and one pint tea.

Serve with cracked ice. Here are two other hot weather drinks that require more preparation:

FRUIT PUNCH. One pineapple, 1 quart water, 1 quart raspberries or strawberries, 6 oranges, 3 cups lemon sirup, cracked ice.

Grate pineapple. Put water and pineapple in a smooth sauce pan and boil three minutes. Strain. Add juice pressed from quart of fruit, orange juice and lemon sirup. Pour over cracked ice and serve.

LOGANBERRY CUP. One quart loganberry juice, 1 pint ginger ale, 1 pint tea, 2 lemons, 1 cup sugar.

Squeeze juice from lemons and strain. Stir sugar into hot tea. When sugar is dissolved add remaining ingredients and pour over cracked ice.

There are two things to remember in serving iced drinks. Always strain lemon or orange juice before adding to other juices and always serve a drink ice cold and with chips of ice in the glasses.

SUMMER WRAP. One summer wrap gets its opalescent appearance from several thicknesses in different shades of chiffon, the material from which it is made. A collar of fluffy gray fox harmonizes charmingly with the many-toned effect.

GRAY SUEDE. Gray suede is extremely popular, both for pumps, and for trimmings on black patent leather pumps. The sandal pump has reached its height, and the newest models are trimmed with stitchings and strappings, rather than silts.

# WAGE INSURANCE ENDS STRIKES

Industrial Plan Adopted at Cleveland Proves Success.

PLEASES EMPLOYERS, LABOR

Unemployment Fund is Provided By System.

CLEVELAND—(Special). —The first basic solution of the seasonal employment problem has been proved in the women's garment industry in Cleveland. Two years of trial, thru the difficult period of readjustment, has shown that the "Cleveland plan" is workable and satisfactory both to employer and employee.

The plan was worked out in connection with a wage decrease of 10 per cent. The question of the reduction was placed before a board of referees. Their decision allowed manufacturers to put the reduction into effect provided they set aside weekly 25 per cent of the new wage scale as an unemployment fund.

Acceptance of this plan was optional with the employers, those not accepting it to continue at the old scale and to set aside 7 1/2 per cent weekly for an unemployment fund. This was to take care of the smaller manufacturers.

UNEMPLOYED PAID, TOO  
The working year was considered on a basis of 41 weeks a year, and anyone not employed this length of time, might draw the whole amount of his minimum weekly wage from the fund during unemployment periods. If a manufacturer provided the full 41 weeks' work to his employees he could, at the end of the year, recover the amount of the unemployment fund.

RELEVES WORKERS' FEAR

But the main good of the plan has been that it has relieved the workers of the fear of starvation through unemployment. Such fear is detrimental to the employer as well, bringing as it does a desire to get sufficient during good times to tide over lean times. It is this that causes disagreements, strikes and lock-outs. And the garment industry is highly seasonal, an industry whose demand for workers varies considerably with the time of the year.

Workers and manufacturers under the former plan were in a constant state of argument as to what was a decent living wage. A manufacturer would say: "Fifty dollars a week is a good living wage."

"Yes," the worker would reply, "but, owing to the seasonal nature of the work, I expect to be let out at the end of 40 weeks, thus making my total income for the year \$1500, or less than \$30 a week."

The attitude of the workers toward the "Cleveland plan" is well exemplified by the story of Miss Mary Styblo, a Cleveland garment worker.

Miss Styblo made her first entry in the garment trades at the age of 16. She began as an apprentice, working 11 1/2 hours a day for 50 cents a week.

Later Miss Styblo was put on the operating machines at \$3 a week for an "outside tailor." When she got a position with one of the factories "inside" the manufacturers' association, her wages were increased to \$9 a week.

What does she think of the garment industry?

"Oh, it's all right now," she says. "There haven't been any strikes or more than three years and the new girls don't know what it was like."

Miss Styblo knows something about strikes. She went through those of 1911 and 1918.

TELLS OF STRIKE

She tells of the strike of 1911: "There were guards all around the factory, at the first floor windows," she says. "They were always having fights with the pickets outside. There was acid thrown and rotten eggs. There was a man killed in one of those fights."

"In 1918 practically everybody went out on strike," she continued. "There was no minimum wage and the girls got just what the tailor in their section wanted to give them."

"It was then that the government

M'CLURE NOT ARRAIGNED

Charged with attacking Madge Brush, 15-year-old daughter of Mr. and Mrs. A. H. Brush, 657 N. Union-st., J. Vernon McClure, 29, dry cleaner of 765 Greenlawn-av., was arrested and is held to criminal court under \$200 bond.

The alleged offense took place Saturday night, police say. McClure met the girl at McCullough park and afterward conveyed her to a restaurant in his auto, it is said. He then drove to the Bellefontaine-rd., according to police.

McClure was not arraigned Tuesday, due to absence of Judge Emmett J. Jackson from court because of the death of his brother-in-law.

# LIE IS PASSED AT LABOR MEET

John L. Lewis and Another Delegate in Row

OHIO NATIONAL GUARD ARMY, CINCINNATI — (United Press) — The American Federation of Labor convention got into a row today over Alexander Howat, Kansas mine leader now in prison.

During a heated debate on a resolution congratulating Howat and August Dorchy, another mine leader for the "courageous and steadfast determination to uphold the law," John L. Lewis called Joe Lynam of Peoria, Ill., a liar.

Lynam, one of the authors of the resolution, charged Lewis was responsible for putting Howat and Dorchy in jail and said he double-crossed them.

The resolutions committee had recommended that the Howat resolution be referred to the United Mine Workers. Lynam objected to this, asserting that "the American Federation of Labor" is now trying to double cross Howat the way John L. Lewis double crossed him."

Lewis made a point of order against Lynam which President Gompers sustained. Lynam refused to be squelched, however, and continued to attack Lewis. When Gompers insisted that Lynam quit indulging in personalities, Lynam responded that he "couldn't help it." He declared Howat was in prison for trying to uphold the laws of the land and of the United Mine Workers.

### TO TRAIN FOR JULY 4 CARD

Followers of the fight game will be given ample opportunities to witness the exciting and fine fighting which will mix the fists of the champions of the world in the hands of Earl Smith, manager of the Gross, Rod Young and Jimmy Andrews, all of whom are cast on the bill, for an open air training camp at Murphy's park have been completed.

Young Jamaica, West Indian light-weight who will fight Leo Patterson of Springfield, arrived yesterday from Cincinnati and will assist in training activities.

It is planned to seat 5,000 at the card. Members of the Lima Gym Club state upward of 2,500 can be accommodated in the grandstand and again as many will be placed in the stands and circus seats. The latter have been secured from a local man formerly in the circus business.

The ring in which Jake Gross and Babe Bream fight for supremacy and three other high class bouts take place, will be located about eight feet east of the homeplate.

The day's final daytime open card will be a miniature of the big shows such as Tex Rickard produces.

### CASEYS WILL PLAY IN TWIN BILL

John Gulian's local Knights of Columbus ball team will play the first part of a double bill Sunday at Ottawa with the K. of C. club of St. town. In the main event Ottobelle will back up against the representative Ottawa team with Don Bohe, just returned from the Appalachian league, pitted against the redoubtable "Smaky" Wannamaker.

Nothing is wanted more by the Lima Knights than a return engagement with Buckland. They were defeated there 11-1 several weeks ago. Gunnan using a bunch of young heads. With his regular lineup, Buckland cannot beat him; Gunnan says, and the battle will be good for the first part of a double bill at Murphy's park July 9.

Possibilities of Don Bohe pitching for the Independents have been discussed. He will be here three or four weeks and Bernie Halloran may see him on succeeding Sundays if not in the next game.

# EVANS DOPES MID-SEASON MAJOR BASEBALL

## RACE LIKE OTHERS

WITH the baseball season one-third over, what about the two major leagues?

Are the clubs running true to form? Will the two New York clubs repeat, as was generally predicted by the experts?

What have been the outstanding features of the two races? Has any rank outsider a chance to upset the talent?

These and a score of other questions are now being debated by followers of major league ball.

In one respect the two major league races have run true to form. The New York clubs have shown the way practically all season, the Browns have temporarily nosed the Yankees out of first place.

"Babe" Ruth, after his six weeks' absence, is once again the big magnet of the game.

RUTH SETS RECORD

Getting back into the game on May 20, against St. Louis, Ruth packed them into the Polo Grounds for four days, setting a record.

In a recent series at St. Louis between the same clubs, 75,000 fans saw the four games, a record for that city.

If there is one thing that Ruth does, it is break records.

Kon Williams of St. Louis is the home-run king of the American League so far this season. He is being closely pursued by Miller of the Athletics and Heilmann of Detroit.

In the National League Cardinals is showing the way.

It is a rather interesting fact that of the four leading sluggers, Williams is the only left-handed batter.

AMERICAN LEAGUE

In the American League the fine start made by the Athletics was the talk of the circuit. The failure of Washington to get away to a flying start was an equally big disappointment to the followers of that club.

In the National League Pittsburgh has played fine ball despite the loss of its star catcher, Schmidt. St. Louis has been rather erratic.

## JOHNSON SAYS HE'S CHAMP

COLUMBUS. — Jack Johnson, former world's heavyweight champion, training near here for his bout July 4 in Washington C. H. with Tut Jackson, has developed a real grudge.

Here's the reason:

"Where do they get that stuff of matching Harry Wills with Jack Dempsey for the championship," Jack asks. "If Dempsey wants to fight the colored heavy-weight champ he don't need to go any further than L'il Artha Johnson."

"Since I whipped Jim Jeffries I lost only one bout—to Jess Willard. I've never been licked by a colored man, so how does Wills get his title to the colored title?"

"I'm ready to box him or Will Tate or any other to establish supremacy of the colored race. After that let Dempsey box the real champ."

"I'm meeting Tut Jackson July 4. That's something Wills and Tate refused to do. Wills or Tate will either fight me or admit they're afraid."

"Who 44 years old I can outbox Jackson, Wills and Tate and if I ever get a match with Dempsey I'll outbox him."

## Gamest On Turf

EXTERMINATOR

By BOB DORMAN

NEW YORK — In Exterminator, a heart whose gameness might well be envied by any human.

For this seven-year-old chestnut gelding ignores distance and weight, grudgingly ignores distance and weight, grudgingly ignores distance and weight, just goes out and does his best always.

So far this year he has won six out of seven starts, with the top weight always his portion.

His best has brought him into seventh place on the roster of the world's great money-winning horses, with a total of \$205,430.

His last victory scored Lemberg out of the seventh place and if he wins his next start he will take sixth place from the great French money winner, Sardana Pale.

Gene Wayland, trainer of Exterminator, says:

"He's an iron horse. Added weight or a heavy track, conditions that hold other horses back, make no difference to him."

"He has won most of the important stakes of the country, among them the Kentucky Derby, the Kentucky Handicap, the Independence Handicap and the Hartford Handicap."

We failed to get a race with Man of War.

"It is my ambition that a purse be hung up this fall for a race between him and the best three-year-old as decided in the Latonia Special."

## IS YOUNG FIGHTING SHY OF KASLER?

Fight fans in Delphos are satisfied that Red Young is fighting shy of another bout with Spec Kasler, their welterweight pride. Young and welterweight prize. Young and management regard as significant the strong finish Kasler made in their last tussle here; they point out.

"Young is not anxious to meet the Delphos welter. There's a reason. The strong finish made in his recent go with Young at Lima has that scrapper somewhat alarmed and they are evidently trying to fight shy of another go. With the improvement Kasler has shown, local fans are of the opinion there is ground for fear," the Delphos Herald says.

Kasler will fight Jack Elliot in an eight round semi final in Bowling Green Friday night and return for a main go July 15. He is also sought in Kenton.

## Browns Boost Lead; Ruth Hits Seventh Homer; Banished

NEW YORK — Trailing the leading St. Louis Browns by two and a half games today as a result of their eighth straight defeat, the skidding Yankees faced a battle to retain even second place against the rush of the hard-hitting Detroit club. The Tigers, by winning their seventh in a row, were within two games of the New Yorkers.

Babe Ruth connected for his seventh homer in the first inning of the game with Cleveland but lost his temper over a decision in the eighth and was banished once more from the field. The Yankees also lost the game in this inning. Speaker's men falling on Carl Mays' underhand delivery and driving across three runs to win by 4 to 2. Duster Matis twisted great ball, striking out nine of the Yanks. Ruth twice was turned back in this way.

SLUGGER STOPPED

Harry Heilmann's great hitting was stopped by Fullerton while the Tugers were outslugging the Red Sox, 11 to 9. The Detroit star had registered 10 consecutive hits, one less than the record of 11 established by Speaker in 1920.

The Browns increased their lead by nosing out the Athletics, 3-2. McManus driving in the winning run in the seventh after a duel between Kolp and Heilmann.

The St. Louis Cardinals hit Phil Douglas hard in the early innings and took their second straight from the Gluts Pfeffer checked the champions in the ninth after Earl Smith started a rally with a home run.

Brooklyn staged a whirlwind ninth inning rally against the Pirates, scoring four runs to tie the score and won in the fourteenth, 6-5. Pinch Hitter Peters' homer in the ninth with two on enabled the Phillies to beat the Cubs, 5-4, while Eddie Schupp, ex Giant who is staging a comeback with the White Sox, held Washington to four hits, fanned ten and won, 2-0.

## HOW TO PLAY BASEBALL

Learn Underhand Throw, Billy Evans Advises

(BY BILLY EVANS)

American League Umpire and Feeder, Editor, The News.

DEVELOPMENT of the underhand throw is an invaluable asset to the infielder.

The natural way to throw is overhand. When first starting to play ball, everyone throws this way. I know of a half dozen infield stars in the two major leagues who know nothing about the art of throwing underhand when they came to the big show.

One first learns to throw overhand. The underhand style is an acquired art. It is a finer development of inside baseball.

Overhand throwing requires the long swing from the shoulder. Usually it is necessary to straighten up to start the throw. This, coupled with the long swing, loses a fraction of a second on the play. That fraction of a second often causes the umpire to say "safe" instead of "out."

The underhand throw is largely used by a second baseman. It is brought into play by the shortstop when forced to come in fast on slow hit balls, making it necessary to let the ball go from a crouched position.

Likewise, it is the salvation of the third sacker when he comes in on a slow, tantalizing bunt, which he handles with one hand.

Having a general knowledge or "picture" of the location of the various bases, the underhand throw enables the fielder to get the ball away quickly without straightening up.

CALLS FOR PRACTICE

The underhand throw, like any other acquired art is perfected through constant practice.

It is best to start making the underhand throw from a stationary position. After having acquired the swing of the delivery, start throwing from a running position.

First have a ball hit to your left and then to your right.

Incidentally, it is always easier to receive an underhand throw from short range than an overhand throw.

Tomorrow is it wise for infielders to knock base runners.

BABE BREAM WINS; ANDREWS LOSES

Another scalp was hung on the belt of Babe Bream, local feather-weight, when he milled with Bert Palmer of Toledo last night in an eight-round semi-final at Redland Field, Cincinnati, and took every frame.

Bream gave Palmer a severe pounding, but Palmer's capacity for punishment enabled him to withstand it.

Jimmy Andrews, Lima bantam, lost by technical kayo to Jack Darry in Toledo when the referee stopped the bout in the second. Andrews was faring badly at the hands of his experienced opponent.

## WOMEN GOLFERS IN FINAL ROUNDS

CLEVELAND — Play in the first round of the championship flight of the annual women's state golf tournament started here this morning, with Mrs. Curtis Sohl, Soloto Country Club, the title holder, teeing off with Mrs. K. B. Wick of the Cleveland Country Club.

Miss Marjorie Kinzey, Wyoming Valley Club, Cincinnati, who led the field of ninety in the qualifying round yesterday with a score of 89, was paired with Mrs. Robert Reid of the Westwood Country Club.

Miss Louise Fordyce, Youngstown Country Club, and Miss Gertrude Taylor, Shaker Heights, who scored second medal honors yesterday, were paired with Mrs. J. E. Harris, Inverness, and Mrs. Paul Banhoff, Cleveland respectively.

First flights for the consolation and other prizes were also on today's schedule.

## PUZZLERS

THREE ANSWERS A DAY TO PECULIAR BASEBALL QUIZZES BY LIMA FANS

Does the infield rule apply with a runner on first base and less than two out?

It does not apply with a runner on first only. There must be runners on first and second, or first, second and third and less than two out.

Is it necessary for a first baseman to touch the bag with his foot, or can he tag the base with the ball? Either is permissible.

Can a batter after having struck out, start for the bench and then discovering the catcher has muffed the third strike, start for first?

He has the right and is not out for running out of line as many think.

## BARNES GETS A 72

SANDWICH, England — Jim Barnes, the American open golf champion, turned in a card of 72 in the second qualifying round of the British open golf championship here today, giving him an aggregate of 154 for the two rounds. Joe Kirkwood, the Australian champion also scored a 72 for an aggregate of 147.

## JACK TO EXHIBIT

OKLAHOMA CITY.—Jack Dempsey will meet Andre Anderson of Chicago in a five round exhibition bout here on the night of July 3. Dan Lackey, local boxing promoter, announced today. Contracts have not been signed.

## RETURN OF RUTH, MEUSEL HINDERS RATHER THAN HELPS YANKEES

BY HENRY L. FARRELL

NEW YORK. — Commissioner Landis might have given the New York Yankees another pennant if he had set Babe Ruth and Bob Meusel down for the season.

While the two vaunted backbones of the club were doing their time, the Yankees played championship ball, but as soon as the pair of stars returned to the game, they slumped until they are now trailing back of the St. Louis Browns in second place.

Up to May 20, when Ruth and Meusel came back into the game, the American champions had won 22 out of 33 games for a percentage of .667. Since the two came back, they have won only 13 out of 28 games.

Ruth and Meusel are both in a batting slump that shows no signs of fading and Ruth has been playing a ragged game in the field. Ruth is too fat to run the bases when he does get a pass.

The protracted slump of the Yanks on their first western trip is not only the outstanding feature of the race, but it may be the big break in the American League race.

## AMATEUR MEET ON

CLEVELAND — Twenty teams were entered in the pro-amateur golf championship, which was held here today as a prelude to the annual men's state amateur golf tournament that starts tomorrow.

The entry list of the amateur tournament has reached 162 early today with other entries expected before the lists close this evening.

says:

April 4, 1922.

My dear Mr. Gillette:

Your letter of March 30th received. I have used the new razor constantly ever since you sent it to me and it has given me the greatest satisfaction. It is infinitely better than the old one. The question of adjustment was always a troublesome one to me. Now I keep it screwed down tight and have not the slightest difficulty. I am well pleased with it and heartily congratulate you upon this invention.

I hope I may have the pleasure of seeing you soon, to renew our old acquaintance.

With kindest regards, I am  
Sincerely yours,

## SHORT SHAVINGS

Dr. Frank Smith says the worst aspect of eating polar pies is that they splash so when they melt inside. He had another experience with the extra hard one he got in a restaurant. "I had to bear down on it so hard with my knife," he says that when the knife went thru, it broke the plate in half."

"Mrs. R. Z. Hartad took a neighbor out for a drive to dry her hair. The young woman with the hair to dry took a comb along to comb it. The sweep of her arm in combing was like a wave of the hand. They learned this when three young men they passed waved back, and one called "Yoo, hoo!"

S. M. Williams tells this of Newton D. Baker. He says that once he almost decided to live in Pittsburgh instead of establishing a residence in Cleveland.

He balanced one against the other after experience with the factory smoke in each.

"I picked Cleveland," he says, "after looking at myself in the mirror. It showed me a shade lighter than at the end of a day in Pittsburgh."

Jim Mackenzie has a farm near Lima.

The woodchucks there are bad.

He tried drowning them out.

Thirty gallons of water had gone into the hole, bucket by bucket.

When he saw the woodchucks lived up on a ridge some distance away watching him work, apparently wondering what it all was about.

"While he was pouring water in at the front entrance to the burrow," explains an interested friend, "the woodchucks had left by a rear exit."

## GOV. DAVIS MAY CALL EXTRA ASSEMBLY SESSION

COLUMBUS — In a letter to the state sinking fund commissioners yesterday, Governor Davis said he would "feel justified" in calling a special session of the state legislature to provide additional funds for payment of state bonus claims, if the \$25,000,000 voted last fall for this purpose is not sufficient. The governor asked the commissioners to advise him as soon as possible whether an additional sum will be needed and if so, the amount of it.

In event there is a shortage, the governor said he would promptly issue a call for the special session. It is expected that the present amount for bonuses will be more than \$5,000,000 short.

## CLASHING AIR WAVES MAKE "CANARY BIRDS" SING

By PAUL F. GODLEY

America's Foremost Radio Authority

An amusing fifteen minutes was spent at the recent radio conference in Washington in the discussion of what someone cleverly termed:

Radio "canary birds."

Almost everyone who has listened to broadcast programs has heard the flute-like notes which slide up and down the scale sometimes rather weak and often very strong. Occasionally they are so annoying as to render the reception of the broadcasting impossible, particularly in those places which are at some distance from the station.

In most cases these "signals" are caused by receivers acting as miniature transmitters.

When the whistle is prolonged at the same pitch for an hour or more, it may be the result of interaction between two broadcasting stations.

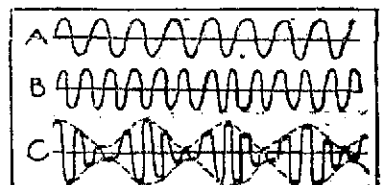

BEATS

In any case, the whistles are the result of beats occurring between

two otherwise inaudible electromagnetic waves.

With reference to the diagram, let us assume that Station A, which is transmitting on a wave length of 300 meters (sending out a wave having a frequency of 1,000,000 cycles a second) happens to reach a receiving station at the same time as a wave which is being sent out by Station B at a frequency of 1,000,500 cycles.

The effect upon the telephone receivers will be similar to that indicated in C where, it will be noticed,

DIAGRAMS OF RADIO-FREQUENCY WAVES SHOWING HOW BEATS OCCUR.

the current rises and falls at the rate of 500 times a second.

The wave of Station A is inaudible, as is that of station B. But the beat which occurs between the signals of both is heard. The pitch of the beat is always equal to the difference of the interacting waves.

Modern long distance telegraph receiving stations use this method for the reception of distant signals. The signal wave from the far off transmitter taken into the receiving apparatus reacts upon a locally generated wave for the production of

audible beats.

The beats are produced only when the signals are coming in. When no signal is incoming, the locally generated signal energy will be unheard because of its rate of variation is far above audibility.

GENERATORS

All regenerative receivers may actually act as generators of electromagnetic waves. The "frequencies" of the wave generated will depend upon the wave length to which the receivers are tuned. The simpler types of regenerative receivers are the worst offenders.

To gain simplicity, the antenna is usually connected directly to the source of the electrical oscillations. The more selective and complex types of regenerative receivers, while capable of acting as transmitters, offend to a less degree.

Listeners should endeavor to avoid this effect in using their regenerative receivers. It may bother the neighbors.

## RADIO PRIMER

E. M. F.—Electromotive Force or electrical pressure or potential of a current. The unit of E. M. F. is the volt. The amount of current passing thru a circuit is the E. M. F. measured in volts.

## HIS SET HAS NO BATTERIES

P. D. Powell, of the U. S. Bureau of Standards, has invented a vacuum tube radio receiving set without the batteries. Instead, the current usually obtained from the batteries, comes from an ordinary electric lamp socket.
